THIS VALUABLE PLANTING GUIDE

FREE!

To every customer who sends us an order of \$1.50 or more by May 1st, 1945, we will send this Planting Guide FREE.

This 20-page "How to Plant" booklet is packed with practical information on plant-

ing, pruning, fertilizing, spraying and general care of most every kind of nursery stock. It tells the story in pictures—you cannot go wrong. Regular price: 10c.

KEEP YOUR VEGETABLE GARDEN FREE FROM INSECTS AND DISEASES

Use our Bug-Dust-O-Cide. Contains Rotenone. Has given highly satisfactory results. Put up in handy dust gun. See full description on page 26.

In this, our 34th year in the nursery business, we are happy to again offer our customers a most complete selection of nursery stock. Because of shortage of labor and an unusually dry growing season, it has not been easy to do this. It does mean that the general supply is smaller even than last year and for this reason we hope that all of you will send your orders as early as you can so that we can reserve your stock while we have it.

The small fruit and fruit trees you plant now will bring you fine, healthful crops of fruit for years to come. The small original cost is repaid many times over with the first picking. When grown for sale, all fruit has always made money, but profits were never greater than right now. Even a small space planted to strawberries, raspberries, blackberries and Boysenberries—asparagus and rhubarb, too—will make handsome cash returns and at the same time provide plenty for home use.

As always, you can depend on Rokely high quality, first class, hardy Michigan plants and trees. They are backed by our guarantee and our years of successful experience in growing and shipping nursery stock. Every item is inspected by Michigan State inspectors and a copy of our certificate attached to every shipment. Write us your questions, we will gladly be of help. Every order is appreciated and will be given the experienced care that has always merited your confidence in us.

PLEASE NOTE—

Read "Instructions for Ordering" on back of order blank. They save time and avoid errors.

All prices F.O.B. Bridgman, Michigan (except where noted).

OUR GUARANTEE

We guarantee all nursery stock sold by us to be first-class, true-to-name, and free from injurious disease. We further guarantee safe arrival of your order by express or parcel post, and will replace free of charge any stock that does not reach you in good growing condition, provided we are notified within 5 days after receipt of shipment. We will also, upon receipt of proper proof, replace or refund the purchase price of any stock that proves untrue to description under which it is sold. However, it is mutually agreed between ourselves and purchaser that we are in no case to be held liable for more than the original purchase price of the stock.

All contracts and agreements are made subject to flood, drought, fire, frost, crop failure or other causes beyond our control.

STRAWBERRIES

Our Specialty For Over 30 Years

Strawberries Will Produce the Fruit You Need Quickly

You can make money every year with strawberries. They show a record of good profits through "good" and "bad" years. Strawberries are easy to grow, produce a big crop in small space, and remember, they are the only fruit that will bring you a full crop in one year from planting.

Start with good plants. Years of experience are behind our plants—guaranteed true-to-name and in healthy planting condition when you get them. You cannot get better anywhere at any price. Be certain of good growth and good crops. We offer only those varieties—both old and new—that we know are dependable and profitable. We urge you not to delay your order. This year of all years—plant strawberries.

ROBINSON The New Super Berry

Last year we said Robinson was a **Super Berry** and that was saying a lot. But, by the way, it has proven itself in leading fruit sections this past year we were not saying too much. A strong, vigorous grower, it produces an unbelievable number of new plants in most any soil. This insures a big crop and the berries are above average in size because each plant usually has only one fruit stem and has lots of vitality to produce these big berries.

Quality—Color—Firmness—Size

Robinson berries are finest flavor, good glossy red color, big in size and firm. All these points make it an ideal berry for marketing near by or far away at the top price, and they also make a berry that is just what you want in your garden to eat and can.

Makes More Plants—Bears More Berries

Many growers say that Robinson is the one berry that may take the place of Premier for market because of more certain crops of finest looking fruit. For home use its quality and flavor are better than Premier. It begins to ripen 3 or 4 days later and its big berries hold their size over a long picking season. Originated in this famous Michigan strawberry section and tested here for about 5 years, it was generally introduced last year. Robinson has fully proven its reputation as one of the best strawberry varieties.

Robinson
(Also See Front Cover)

PREMIER

A GREAT COMMERCIAL BERRY

PREMIER is one of the most profitable strawberry varieties grown today. It puts a big crop of fine appearing berries on the market first every time and does it in spite of frosts that often kill other varieties. These two facts are PREMIER'S greatest points of superiority as a dependable money-maker. PREMIER eliminates crop failures, and by ripening five days to a week earlier than any other kind, it never fails to command high prices. Always produces its good crops on a wide range of soils and climates throughout the country.

Actually millions more Premier plants have been sold the past few years than any other kind. Premier continues to be widely planted in larger quantities than any other early berry. Growers know that PREMIER is an unfailing money-maker every year. Consumers demand it. You will need to grow PREMIER—and plenty of them—to be in the berry business profitably.

Order at once so we can reserve yours. Our plants are guaranteed true-to-name, healthy and vigorous. You can depend on them to make money.

Premier

Why Premier is Better

1. First to ripen.
2. Remarkably frost resistant.
3. Long fruiting season.
4. Unusually large crops.
5. Size above average.
6. Bright, glossy, solid color.
7. Uniform, attractive shape.
8. Firm berry, excellent shipper.
9. Buyers pay a big premium for Premier.

Earliest of All— Frost Proof

If you want to make more money, plant Premier this spring!

Grand Champion

Remarkably Long Fruiting—40 Days

Tall vigorous plants protect early blossoms from frost and also keep the last berries fresh and bright. Unusually frost resistant; ripens over an unbelievably long season, beginning a few days after Premier—sometimes lasts 40 days. Big crops, good quality, fine flavor and great size. We recommend Grand Champion for your fruit garden.

★ ★ ★ CLERMONT ★ ★ ★

Beautiful Big Red Berries

Outstanding for Market and Home Use

Last June in picking Clermont and Premier side by side Clermont plainly showed its greater size, heavier yield and more glossy, attractive appearance. That is saying a good deal but it is true. The soil was rather light sandy loam.

Ripens with Premier

Clermont is really worth planting everywhere. Introduced by N. Y. Experiment Station about 10 years ago it has proven outstanding for exceptionally heavy plant growth and big crops of large, smooth, fine colored berries. You can't help but exclaim over the unusually brilliant, beautiful appearance of these ber-

ries—and their flavor is as superior as their appearance. Recommended for general northern planting—a hardy, vigorous grower. Firm fruit makes a good market berry. And remember, Clermont berries are unusually fine flavored.

SENATOR DUNLAP Old Reliable Money-Maker

Senator
Dunlap

Senator Dunlap (or Dr. Burrill) is probably better known throughout the country than any other strawberry. It has the reputation of producing full crops in a wider range of soil and climate than any other variety. No wonder growers in nearly every state in the Union order more of this old reliable berry every year. Today Senator Dunlap is one of the three or four strawberries that buyers know and ask for throughout the country.

Certain Crops Everywhere

Many canning factories want nothing but Senator Dunlap and contract for thousands of cases yearly. They know it always holds its shape and rich color long after canning—and that the flavor lasts. Uniform berries of glossy, dark red. Last year we sold out of Dunlap early and the demand is equally heavy this year. We have a good supply but urge you to order yours early. **Ripens Mid-Early.**

Catskill

Best and Most Profitable Midseason Berry

It is only once in a while that a new variety proves so satisfactory in every way and so profitable as Catskill has done. Its biggest feature is its enormous crops of big, fine, bright scarlet, green-capped berries. Picking begins just after the early kinds and Catskill berries are of great size and firmness to the last. Plants are unusually strong, hardy, healthy little affected by diseases and will produce their great yields in all soils and seasons. With Premier for early and Catskill for midseason to late, you have a combination for top prices over the best of the strawberry season.

Enormous Crops of Fine, Big Berries

Such a splendid midseason berry is needed to follow the fine very early varieties Premier, Dorsett and Fairfax. CATSKILL does it successfully, and is making money for everyone who grows it. It will pay you and we recommend it fully. For home garden, Catskill is ideal because its fine flavor, rich color and large size are just right for canning and preserving or fresh for table use.

New York Experiment Station, the originator, says:—"Catskill is notable for being very large and very productive. Plants are vigorous and free from leaf-spot. Ripens later than Premier and is of better quality as well as being larger. Much more productive than Dorsett and Fairfax."

**BE SURE TO PLANT CATSKILL

Catskill

DORSETT For Big Early Crops

One of the best of all varieties for big regular crops. You can depend on it for good profits every year. Dorsett has been widely planted in all fruit sections and has come through with paying crops every time. We advise you to plant it. You need Dorsett to get the most out of your berries.

Every Desirable Strawberry Feature

Experiment Stations in Michigan, Illinois, New York, and Washington, D. C., do not hesitate to say that it is superior to Premier in size and quality. Commercial growers like Dorsett because it makes money. It does so because its firmness, big size, fine flavor and wonderfully bright color are just what both wholesale buyers and the housewife want. Originated by the U.S. Dept. of Agriculture at Washington, 1923, it has proven superior in these points.

1. Ripens almost as early as Premier.
2. Size and yield above average.
3. Very vigorous grower, making almost as many plants as Blakemore—assuring good crops even in poor seasons.
4. Firmer berries—fine shipper.
5. Light red, glossy berries that buyers pay more for.
6. Flavor superior to any other unless it is Fairfax.

With these features combined in one berry, you have the ideal berry for home or commercial use. You will make no mistake in a good planting this spring. We have a stock of fine, genuine Dorsett. Don't wait—there is a big demand.

Dorsett

New
Minnesota
1166

The New Minnesota 1166 Everbearer

SUMMERTIME'S MOST DELICIOUS FRUIT

Minnesota 1166 is a heavy-yielding Everbearer. This past season the sturdy plants were loaded with great berries from July until into November. They sold for \$10.00 and \$12.00 for a 24-pint crate at wholesale. Think of it! Back in 1942 when prices were lower, 1,200 plants set in April had made \$500 by November 18th. We think Minnesota 1166 is about the finest and heaviest producing Everbearer we have seen.

Ripens Over Long Fruiting Season—July to November

Berries are rich, solid, dark red all the way through. No green tips or spots. Large size, with a rich, sweet, mild flavor. Firm and easy to hull. Very good plant maker—better than

Mastodon and about like Gem. Originated by the Minnesota Expt. Station, this everbearer is one of the hardiest berries grown.

Easy to Grow in Any Garden

If you plant Minnesota 1166 this spring you can enjoy fresh Strawberries from your own garden this summer. They are delicious, healthful and economical—summertime's most delicious fruit. Plants are in big demand because of its outstanding performance, so order yours early.

MINNESOTA 1166 PRICES

25 for.....	\$2.25	100 for.....	\$ 7.45
50 for.....	3.95	200 for.....	12.75
300 for.....			\$16.75

FAIRFAX—Early

Leads All In Firmness and Quality

Like Dorsett, Fairfax is a superior berry, particularly in firmness and flavor. Often called the most deliciously flavored of all. Berries are very firm and of large size. Color is rich dark red, turning darker after picking. Individual plants unusually large, vigorous and healthy.

Which to Plant—Dorsett or Fairfax?

Many ask this question. Both are wonderfully fine berries. Both are of superior size and flavor, making either desirable for home gardens. The lighter, more attractive color of Dorsett may make it more profitable for the general market. But the somewhat larger size and exceptional quality of Fairfax are often desirable in the home garden. **BE SURE TO PLANT SOME FAIRFAX THIS SPRING.**

Gem Everbearing Strawberries

Make Money This Fall With Gem

Gem is the everbearer fruit growers have been looking for, because, unlike all other everbearers, it is an excellent plant maker on good or poor soils and in wet or dry seasons. This fact means that it can be depended on for good crops every year. Here we have a really fine fall berry of good size, fine flavor and unusual firmness.

Productiveness—Flavor—Firmness

1. **Productiveness.** GEM makes so many more plants than other everbearers that it produces many more berries.
2. **Flavor.** A true strawberry flavor—something most everbearers don't have.
3. **Firmness.** Remarkably firm—only everbearer that reaches market in really first class shape.
4. **Profits.** Because of size, firmness and sure crops—good profits are certain.

MICHIGAN EXP. STATION SAYS:

"Gem is certainly a wonder as far as plant making is concerned and it certainly bears well."

You can plant Gem with full confidence of a full fall crop and good profits.

Everbearer

Mastodon

MASTODON

Most Widely Planted Everbearer

Everyone wants and needs a good everbearer that can be depended on to produce plenty of good fruit regularly in the late summer and fall. Mastodon has shown year after year that it will do this in all sections and under most any soil and weather conditions. It is entirely satisfactory for the home garden or commercial patch. Our Mastodon Plants are guaranteed true-to-name and will do these things for you. Through years of proper selection and propagation they are superior in vitality and productiveness. The berries are "Mastodons" in size.

Plant plenty Mastodon and have good fruit to sell at top prices this summer and fall. ORDER YOURS TODAY.

GROW GRAPES

**A Lifetime of
Crops and Profits**

The New SENECA

juicy, deliciously sweet flavor—and—the skin can be eaten with the berry! Long, compact, medium size bunches. Vine perfectly hardy wherever other northern grapes grow. Ripens here in early September. Why not get one or two vines this spring—the flavor is delicious.

Fredonia

NEW FREDONIA

A Far Better Extra Early Black

Originated and tested by N. Y. Expt. Station. FREDONIA is the best extra early sort, ripens 10 days before Moore's Early and 3 weeks ahead of Concord. Berries are very large, hang well to the bunch and are firm, juicy and of fine flavor. Skin is thick and tough to make a good shipper. Vine is vigorous and productive with medium size very compact bunches.

Early grapes make the most money and FREDONIA is a fine quality extra early grape far ahead of any other early kind now on the market. The bunches keep their vine-fresh firmness and fine appearance for days after picking. Begin your planting of this new kind this spring.

NEW PORTLAND (White)

Fine Extra Early Grape

Similar to Niagara in its large size bunch and full oval berries, Portland ripens three weeks earlier. Production is heavy, young vines bear early and bear good crops every year. Berries are of good size, fine and sweet in flavor. Vines entirely hardy. Introduced by N. Y. Expt. Station and is proving an excellent profitable grape because it ripens so early and its quality is so good.

CONCORD The Universal Black Grape

Always in good demand—the standard by which all other black grapes are judged. No vineyard or arbor is complete without Concord. Best for market, eating and home use.

It is the main crop for every grower everywhere and produces big crops on any soil every year. After the first expense the cost of up-keep is but little. It is a profitable permanent investment.

Our Concord vines are well rooted, especially adapted to the central west, and guaranteed to reach you in perfect growing condition.

New CACO—(Red)

Big, Sweet, Juicy, Productive

Caco is A-1 in every respect. Hardy, quick bearing, produces every year; fruit beautiful, unusually large size, clear amber color and best of all has a flavor of such sweetness it is a superior table grape.

Always in demand at grape markets with extra prices. Widely endorsed by experiment stations. Vines just as easy to grow as any other. There is always room for a few vines somewhere. Don't be without Caco.

NIAGARA—(White)

Best White Grape for Every Purpose

The best known and most popular of all white grapes, ranks with Concord in heavy bearing, size and quality.

Medium compact, large bunches; berries mostly round, of greenish-white color; very juicy and of excellent flavor, skin is thin but tough and does not crack, making it a fine long-distance shipper. Hardy, vigorous grower.

DELAWARE—(Red)

Long called the standard of excellence of all grapes as a table delicacy. Bunch small, compact; berries small with thin skin and of unusually sweet flavor. Ripens with Concord. Hardy.

It is impossible to tell you how really delicious these little red grapes are. Don't fail to plant a few vines this spring.

Grow RHUBARB

Both Are Delicious Quick-Frozen Foods

Rhubarb and Asparagus should be in every garden because they are delicious and healthful. Everyone needs more of them both fresh and canned. Both are so easy to grow and there is always space around the edge of the garden for enough roots to provide all you need. There is good money in growing asparagus and rhubarb for the fresh or canning market. More and more people are finding them a source of extra income, even with small plantings. Why not plant more of both this spring?

MacDonald Crimson The New Red Rhubarb

This new variety is the best of all. Yields heavily from spring right through to late summer because it never goes to seed. Will last for years. Produces unusually large attractive crimson stalks and the good thing is that they are very tender and juicy (skin and all); not tough or stringy as most large stalks are. If everyone knew this grand new red rhubarb no other kind would be planted. It is so much better in every way—large size, rich red color, greater production, and best of all a deliciously sweet flavor. Superior for canning—each piece pink, tender, not stringy, the syrup rich in color, and all a wonderfully mild flavor.

Ours are all strong division roots ready to produce quickly. Planted this spring they will make fine large stalks for your use this summer and fall and of course again in the usual early spring season. Excellent for winter forcing.

PRICES—Each 59c; 3 for \$1.65; 6 for \$2.95; 12 for \$5.90; 25 for \$9.95.

MYATT'S VICTORIA Early. Rhubarb is in greater demand every year at food stores everywhere. Victoria is the preferred market variety and is generally planted. Good for winter forcing, too, when prices are highest. Attractive pink stalk, delicious, mild flavor. This pink stalk, tender variety is preferred and brings best prices. Our stock is carefully grown from guaranteed tested seed. Victoria is ideal for pies and sauce. Transplants easily; produces abundantly.

1-yr., 1/2 to 1 Inch—Each 12c; 6 for 50c; 12 for 95c; 25 for \$1.45; 50 for \$2.70; 100 for \$4.45.

1-yr., 1 Inch and up—Each 18c; 6 for 90c; 12 for \$1.55; 25 for \$2.50; 50 for \$4.65; 100 for \$8.45.

VICTORIA CLUMPS

Large 2-year-olds, ready to produce this summer. Just the thing to get Rhubarb started quickly in your garden.

PRICES—Each 34c; 3 for 90c; 6 for \$1.55; 12 for \$2.85.

MacDonald Crimson

HORSERADISH

Big Crown Plants that Produce Quickly

How many times have you wanted Horseradish roots or leaves for your canning and kitchen use! It is easy to grow and a few of these roots multiply rapidly and will make all you need. Plant in any out-of-the-way corner. A fresh, home grown supply is much better than what you buy. The cost is little and once started Horseradish lasts for years.

Prices: Big Crowns—3 for 43c; 6 for 75c; 12 for \$1.25; 25 for \$2.15.

New Canada Red RHUBARB

This is a new red rhubarb that is in top place for appetizing red color and deliciously mild flavor. It is seedless and therefore everbearing. A vigorous, hardy grower and its long, tender stalks are rich red, right through. Of milder flavor than most kinds; requires less sugar. Many consider it the best rhubarb yet introduced. Plant 2 or 3 roots and enjoy it. Grows easily in any good garden soil.

Price: Each 75c; 3 for \$2.00; 6 for \$3.75; 12 for \$7.25.

"Your Asparagus Bed"

Garden Fresh Asparagus is a real treat. Don't miss it.

2 Year No. 1

50 New Paradise
50 Mary Washington

\$2.97

& ASPARAGUS *For Profit*

REGULAR CROPS YEAR AFTER YEAR

Asparagus is easy to grow and you can make big profits from a small space. 50 to 150 plants will supply this delicious food for the family. A bed lasts for 10 to 15 years, and you can depend on heavy regular crops from our roots. It is most important that you get strong, healthy true-to-name plants. We grow them by the thousands from guaranteed tested seed on special soil to give you the best planting stock.

Mary Washington

Mary Washington

Developed and recommended by U. S. Dept. of Agriculture. Heavy yielding, pedigreed strain immune to rust; grows rapidly and produces uniformly tender shoots of excellent table quality.

Now that canning companies have found how to can asparagus and retain all its delicious flavor and healthful food qualities they are contracting for greater supplies every year. At the same time there is a rapidly increasing demand from grocery stores and commission merchants for fresh asparagus during the summer season.

\$4,000.00 from 4 acres—That is what one local grower made from his field of asparagus, and shows what can be done with the present day asparagus market. 5,000 roots plant an acre. Here the cutting season begins in May, before any other cash crop.

There is a steady demand with average prices of 7 to 10 cents per pound. You can make money growing asparagus now!

New! Paradise Asparagus

Bears a Big Crop in Only One Year

That tells the story of this remarkable new Asparagus. It comes into full production quickly—no need to wait 2 or 3 years to begin cutting. PARADISE was bred and developed to do just that.

Paradise Makes Profits Quicker

The rapidly increasing demand for both its plants and stalks as Paradise becomes more widely grown, shows that here is a popular asparagus variety. It is rust resistant and produces great, wonderful appearing stalks of delicious flavor. Paradise is a most excellent asparagus for home use and profitable market sale. We are glad to offer this new, early producing, deliciously flavored variety at these low prices:

- 1-yr. No. 1 roots: 12 for 80c; 25 for \$1.10; 50 for \$1.90; 100 for \$2.95; 250 for \$6.50; 500 for \$11.75; 1000 for \$19.75.
- 2 yr. No. 1 roots: 12 for 95c; 25 for \$1.50; 50 for \$2.55; 100 for \$4.35; 200 for \$7.90; 300 for \$11.00; 400 for \$13.45; 500 for \$15.75.
- 3 yr. Jumbo Size: 12 for \$1.45; 25 for \$2.60; 50 for \$4.25; 100 for \$7.25.

Black Raspberries *Always Make* **MONEY**

Black Raspberries have regularly been bringing better than average returns every year. Fruit canneries always contract for a good part of the crop and this insures better prices all around. These are proven, profitable varieties. Michigan grown, double inspected raspberry plants are recognized throughout the country as the best. Our soil is especially adapted to produce sturdy, well rooted quick growing plants.

Low Prices For Dependable Certified Plants

Bears Heavily—Picks Easily—Makes Money

Clear money above all expense is what you want and you can depend on our heavy producing, vigorous plants for it. Cumberland is still the leading berry in the plantings of commercial fruit growers everywhere. Government Experiment stations have found none that promise to be a better money-maker.

If you grow Black Raspberries at all you need this great mid-season berry for a complete planting; it is hardy, healthy and produces its big paying crops of fine berries in every fruit growing section. Plants vigorous and very productive; thrive everywhere. Berries large, firm, jet black with a delicious flavor. Wonderful long distance shippers—attractive appearance—always command good prices. Guaranteed to please you and make big money.

Worth-while Novelty Fruit

Yellow Black Raspberry

The plant of this new and unusual berry is a bush just like the standard blackcap. New plants are produced from tips in the usual way. Heavy crops of fruit are produced all along the branches but the berries are golden-yellow in color. Size, flavor and quality are very good. They make unusual and delightful jams and jellies. The plant supply of this new fruit is limited. Order yours early while we have them.

1-yr. No. 1 heavy rooted plants: 3 for 65c; 6 for \$1.00; 12 for \$1.80; 25 for \$3.10.

2-yr. Bearing Age: Each 55c; 3 for \$1.45; 6 for \$2.65.

THE NEW! MORRISON

Black Raspberry

Bigger, More Profitable—Late Berry

Here is a really better Black raspberry for both home and market use. Morrison has now been widely tested from Pennsylvania to Michigan, and has proven head and shoulders above other varieties in most every way. Commercial growers say: "Largest blackcap I have seen." "Practically disease free." "Larger and firmer than Cumberland. Does not crumble." "Holds its size to the last of the picking season." "For two years it has brought more than other varieties on the Pittsburgh market."

A county agent says: "The Morrison is somewhat the most attractive berry I have seen in several states. With us the berry ripens slightly later than Cumberland, is considerably larger, very dark and glossy and sells at a premium at all times."

The big bushes are exceptionally vigorous, hardy growers; long lived (some producing well after 12 years), and are practically disease free.

Morrison berries are high flavor, firm, juicy, not so seedy, and the size averages almost an inch across. They hold up longer in grocery and market, outyield other varieties and **MAKE MORE MONEY FOR THE GROWER!**

To sum up, Morrison is:

1. $\frac{1}{3}$ larger than any other blackcap.
2. As heavy a yielder as Cumberland.
3. Practically disease free.
4. Does not crumble—holds its size all season.
5. Makes more money because its large size and glossy color make so much better appearance.

SPECIAL INTRODUCTORY OFFER

6 New Yellow Black Raspberry, 1 yr. **\$1.75**
6 New Morrison Blackcap, 1 yr.

Early NEW LOGAN

Most Widely Planted
Early Blackcap

Ripens 6 to 9 Days Before
Cumberland

This is the early variety growers have been looking for. It has all the good points other early berries have lacked. Its berries are good size, do not crumble (unusually firm), do not dry up, hold a glossy black color and have a deliciously sweet flavor. Logan is a fine home garden berry. Bears heavily, maturing most of its crop before Cumberland begins, and so gets the best of the early high prices. Many

Michigan canning companies are contracting Logan because they like its rich flavor and uniform berries.

Logan is recommended Michigan and Ohio Experiment Stations. It has proven to be an entirely satisfactory commercial berry in the great fruit sections of these states. It is remarkably free from and resistant to disease; a strong grower, throwing out plenty of fruit canes.

We recommend Logan for its earliness, its excellent quality, its firmness and color for market. Plant Logan and you will be well repaid. Our price is low for this fine Early Raspberry.

Sodus

SODUS

THE BEST PURPLE RASPBERRY

A Coming Money-maker
Ripens Early

This New Early Purplecap
Promises Great Profits

If you have not eaten purple raspberries both fresh and canned, you have a delightful experience coming, for these berries have a color, aroma and flavor that call forth that "more" taste. They are something deliciously different.

This newcomer from the Expt. Station will be a money-maker because of its great size, attractive color, extra firmness and exceptionally heavy crops. Giant, bright purple berries, do not crumble, borne in great clusters on every branch. Flavor good—a blending of red and black raspberry.

SODUS is a rapid grower with great strong canes to carry its big load of fine fruit. So far it has shown almost complete freedom from mosaic; plant safely anywhere. Had no winter damage when others were frozen. Stands dry weather unusually well.

Sodus Has Size, Color and Quality

Sodus is the best of all purple sorts generally planted today; has proved both resistant to drought and hardy in winter cold. A good sized, fine flavored purple raspberry with attractive appearance will make money. SODUS is such a berry and deserves extensive planting for commercial use. At home, its tart flavor and great size are what everyone wants for canning and pies. Plant SODUS for a Really Good Purple Cap.

Better Rooted, Fully Branched
Ready-to-Bear

New Mammoth BOYSENBERRY

\$800 to \$1,500 Income Per Acre

55 of the largest berries fill a quart basket. Average size, 1 inch diameter, 1½ to 2 inches long—largest bush or vine berry known. Bushes are hardy (has stood 19 degrees below zero). Its exceptionally rapid growth, heavy crops, immense size and deliciously different flavor will amaze you. Grows like a dewberry and is as easy to raise. Ripens with them and fruits over a longer season.

Fine for Jams, Jellies, Pies

Boysenberry is a cross of Blackberry, Raspberry and Loganberry. Berries dark reddish-purple, wine-colored, juicy with a high flavor not found in other bush fruit. Unbeaten for jellies, jams, pies. A dozen plants give you all you can use and some to sell.

Enormous Spicy Purple Berries

Boysenberry is a real money-maker because of its outstanding features of immense size, exceptional productiveness, unusual flavor and fine appearance—it is impossible to realize how far superior in all of these qualities it is until you have seen it. Market growers are greatly increasing their Boysenberry plantings because these larger, better berries are proving big money-makers for them.

NOW! Thornless Boysenberries

Pick
With
Pleasure

**Ripens 10 Days
to 2 Weeks Earlier**

Think of the pleasure of picking a berry with all these advantages and entirely free from thorns, too. That is what you have with the new Thornless strain. The only difference we can see is that the berries are slightly smaller than the regular Boysenberry. Thornless brings you ripe fruit about two weeks earlier, too. Easy to grow and quick to bear a big crop, with beautiful berries decidedly different in flavor—you just cannot beat these “pleasant-to-pick” Thornless Boysenberries!

RED RASPBERRIES

Latham

Most Profitable
Late Red

Latham has definitely proved to be the best red raspberry money-maker in every fruit section of the country. Each year for the past five years we sold more Latham plants than all other red varieties put together.

For general planting in all sections, Latham is the best because this hardy, vigorous grower can be depended upon

for big annual crops of finest looking berries. Fruit buyers on every market pay a premium for Latham's bright color, firmness and long keeping quality. These things and its most delicious flavor make it equally desirable for home gardens.

Latham

**Latham Is Still the Best Fruit
Everywhere for Profit**

FOR CANNING—Jams and Jellies—Unusually rich color that does not fade, and what a wonderfully delicious, true, fresh raspberry flavor! The ideal berry for canning uses.

GOVERNMENT EXPERIMENT STATIONS—Recent reports from leading fruit states say that Latham is the best and most profitable berry for its season and highly recommend it for planting.

Guaranteed, True-to-name, Disease-free, Genuine LATHAM. You cannot afford to plant any but the best.

Hardy, Productive, Dependable

Hardy and very productive—far out-yielding older kinds, it ripens from mid-season to late. We wish we could convince you what a truly fine berry LATHAM is in every way. If you have grown it you already know. Berries are all above average size, bright red, and make the most attractive appearance of any red variety; the flavor is of the finest. You will make no mistake in planting all you can.

Marcy

New Worthwhile
Midseason Red

Marcy is the largest red raspberry fruited at the N. Y. Expt. Station in recent years. More than this it has been grown satisfactorily for general production and is proving one of the best mid-season varieties. Ripens just before Latham and its great, long pointed berries and bright glossy color make for above average prices. Mild, sweet, good quality flavor better than Latham but not quite equal to Taylor.

Bushes are tall, very vigorous and upright growing, needing no support and making picking easy. Disease resistant to a remarkable degree; hardy in cold winters. The crop is very heavy. Marcy is recommended as a worthwhile, better red raspberry for home gardens and commercial plantings.

THE NEW **SUNRISE**

**Extra Early—Extra Quality
Extra Hardy**

SUNRISE comes to you fully tested and proven as a better flavored, better quality berry for home use and an earlier ripening, hardier growing, more profitable variety for market. Here is its story—judge for yourself.

1. **Originated by U. S. Dept. of Agri. in 1923;** carefully tested by them since and they say—**"Of most importance from the standpoint of the practical grower perhaps, are the hardiness and resistance to disease of the plants, the earliness and larger size of berry as compared with St. Regis and the better texture and quality as compared with Latham."**
2. **Earliness—**N. J. Expt. Station says: **"The special value of SUNRISE is its earliness. This year it was ready for first picking June 8, Chief on June 19, Latham, June 23."**
3. **Long Picking Season—**N. J. Expt. Station says: **"In most cases SUNRISE will continue to produce some fruit even after Latham is practically finished."**
4. **Hardiness—**U. S. D. A. says: **"SUNRISE has shown resistance to low temperatures in mid winter at New Jersey with practically no injury, whereas Latham and some other varieties were severely injured."** It has been more resistant to anthracnose, leaf spot and spur blight than Latham.
5. **Flavor and Quality—**U. S. D. A. says: **"More attractive than Latham—color is bright, turns dark red on ripening, berries pick easily. They are firm, fine textured, juicy, non-crumblly, mild in flavor, better quality."**

Sunrise

From these statements you can see what a superior variety in every way SUNRISE is. Don't wait longer to make a planting of this new U. S. D. A. berry.

Another Fine **Washington Red Raspberry** New Red

Another good new red raspberry has long been needed to replace older kinds and in many respects Washington gives good promise. The berries are of very good quality and flavor—much better than Latham—large and attractive in appearance. Well suited to canning, preserving and quick freezing. It is an abundant bearer.

A Fine Home Garden Berry

Washington was introduced by the Washington State Expt. Station seven years ago and is recommended as a valuable commercial variety in that section and the central west. In the Michigan section it should perhaps be further tried out for commercial value. But for the garden and all home uses its heavy bearing, large size and most excellent flavor make it most desirable. You will like it.

This new variety has not been generally available before and we are fortunate in having a reasonably good supply of genuine Washington for you. Order early.

Indian Summer

INDIAN SUMMER

New Everbearing Red Raspberry

Here is a distinctly new type of everbearer, unlike any older kind. "Marvelous" justly describes Indian Summer. The quantity, size and quality of the berries it produces in September, October and November are truly marvelous because they are so far superior to any other everbearer. With such a berry you can make worth-while profits from the high prices always paid for off-season fruit. You get a good early crop in the regular season, too.

Berries are uniform, rich red, thimble-shaped, large and juicy; flavor a true, tart, delicious raspberry. A thrifty grower and heavy producer. You have never seen any fall berries as good in every way as INDIAN SUMMER. Be sure to plant this spring.

ST. REGIS Everbearing

This old and well known everbearer is planted by many growers. Bushes are good size, upright, vigorous and remarkably free from disease. Produces a full spring crop as well.

Chief—Early Red Raspberry

Chief is replacing King and other early kinds because it is better. Early Chief is paying Michigan growers well. Berries are of good size and color, firm, and reach the market in good shape for early-season high prices. Perfectly hardy, a vigorous grower and heavy producer—Chief will make good anywhere.

Early Red Raspberry for Home or Market

Chief plants received from us are guaranteed true-to-name and No. 1 in every respect. Early red raspberries always pay well and with Chief you can depend on some extra profits. We think a lot of Chief and we recommend it to you as a money-making early red raspberry.

ELDORADO BLACKBERRY

Satisfactory Everywhere—Always Dependable

Every good quality possessed by other blackberries is emphasized in ELDORADO. Its exclusive advantages are: Absolute freedom from Orange Rust; a very heavy bearer with great, jet black berries.

Plants are so strong and vigorous they survive severest Northern Winter without mulching; Eldorado will produce paying crops in climates and locations where less hardy kinds will be frozen! A splendid shipper, because the berries are so firm. Plant Eldorado generously. They are making big money for other growers and will do the same for you.

Dollar Making BLACKBERRIES

Did you ever see finer looking berries than those shown here? Blackberries are more popular than ever, but you must grow the right varieties and get the best quality of plants to secure the maximum profits. Alfred and Eldorado are the best grown today and will produce the crops you expect. Blackberries have paid mighty well and now is a good time to plant more.

Early Alfred

Alfred is best for every use. It has been grown by leading fruit growers and proven the **Best Early Blackberry** variety. We unreservedly recommend it to our customers as thoroughly satisfactory and the equal of any blackberry early or late when it comes to producing big crops and paying worth-while profits. Think of a bush full of tremendously big blackberries from 1½ to 1¾ inches long, practically free from seeds, coreless and with a thick pulp fairly bursting with delicious juice. That's Alfred!

Paying Crops of Big, Juicy, Delicious Berries

Alfred ripens a full 10 days ahead of Eldorado and continues all through the Eldorado season. Alfred berries are bigger, brighter colored, of better flavor and bring better prices right along. Once you grow Alfred you won't be satisfied with any other berry—fine, large berries that carry well to market.

The plant is such a vigorous, healthy grower that it produces a good crop the first year after planting. Withstands cold that kills less hardy varieties.

Alfred will please you—whether raised for pleasure or profit. It is another of our splendid varieties—selected for its worth. Alfred plants are still scarce, but we are making a price within the reach of all, because everyone should have this wonderfully fine berry.

ICEBERG White Blackberry

This is a really worthwhile blackberry. When fully ripe the berries are creamy white and of good sweet flavor. Easy to grow as any blackberry and produces plenty of its novel white berries. Put a few plants in the garden and surprise the neighbors.

JONATHAN—LATE FALL. Sold in every store. Glossy red; fine grained, juicy flesh, excellent flavor. Medium to large size. Unusual keeper (to February) makes it a most profitable commercial apple. Quick to bear and easily grown in practically every fruit section. Jonathan is first choice in many homes.

RED ASTRACHAN—BEST EARLY SUMMER. Well known old sort. Large round, crimson apple; rich juicy, excellent eating and cooking early apple, vigorous and productive tree.

STAYMAN'S WINESAP—LATE WINTER. Best Winesap. Extra large, bright red, crisp, juicy with a wonderful zestful flavor. Stayman easily leads all other Winesaps. Heavy bearers and big money-makers everywhere.

WEALTHY—FALL. Heavy yearly bearer. Hardy, long lived. Attractive, brilliant, red striped; superior quality, wine-like flavor. An all-round apple for eating, cooking, cider and market.

Plant More APPLES

*And Have Plenty of
Fruit for a Lifetime*

Ours are guaranteed true-to-name, well rooted, quick-growing trees. These are high-quality, proven value varieties, best adapted to eastern, middle-western and northern soils and climates. There is real pleasure and a big saving in having two or three trees of each fruit right in your garden. As a commercial proposition, tree fruit is always in profitable demand.

BALDWIN—WINTER. This widely known variety averages about medium size, rich dark red, juicy, fine flavor. Good for market and home use. One of the first two or three varieties in the great Michigan and New York apple sections.

CORTLAND—WINTER. Many customers have asked us for this newer apple and we are glad to supply them. Cortland is an excellent, early bearing, long keeping McIntosh type. Large fruit streaked with bright red and yellow. One of the best commercial sorts.

DELICIOUS—(DOUBLE RED). Winter. Known world over. Brilliant dark red, shading to yellow at blossom end. Large to very large; white tender juicy flesh. Wonderfully rich sub-acid flavor—truly delicious. Ships without bruising, makes a wonderful appearance, commanding top prices. Comes into bearing early.

YELLOW DELICIOUS—LATE FALL. This beautiful new apple has the distinctive shape and big size of Red Delicious with an added deliciousness and mildness of flavor that is unsurpassed by any apple. Flesh solid, crisp and full of juice; its rich golden-yellow, firm smooth skin gives it a luscious appearance. This new, highest quality apple is always in demand and brings top prices. Plant it now.

GRIMES GOLDEN—WINTER. Favorite mild eating apple. Excellent keeper, uniform shape, typical dull gold color. Hardy productive tree. Carefully selected and grafted trees insure satisfaction with this fine apple.

McINTOSH—WINTER. A MONEY-MAKER TODAY. Juicy snow apple—white, crisp flesh; beautiful solid crimson color. Excellent quality—winelike, true apple flavor. Good annual bearer. Rapidly increasing popularity among consumers everywhere makes good prices certain. One of the most profitable apples.

NORTHERN SPY—WINTER. The old, well-known favorite. Delicious juicy flavor; excellent for eating and cooking. Brilliant streaked red color. Always in demand; good prices; long keeper.

YELLOW TRANSPARENT—EARLY FALL. Has proven both popular and profitable. Fruit large yellow with crisp sub-acid flavor. Heavy annual bearer; well known everywhere.

Three New **APPLES**

Outstanding Quality

DOLGO CRAB—Striking, Dazzling Red, New Crabapple. Unbelievable heavy bearer; free from blight. Jells quickly even when fully ripe. Good to eat fresh. Beautiful hardy trees, thrives everywhere. Called the "Perfect Crab." Dolgo is replacing older varieties. Its lustrous green leaves and mass of pink blossoms make it ideal for lawn planting.

PRICE: 9/16 in., Each, \$1.25; 3 for \$3.55; 10 for \$10.95.

ANOKA—Have Apples the Second Year. Bears on one year old growth and bears annually. Ripens in August; very heavy bearer; fruit red stripes over yellow; fine cooking quality, short keeper. Originated in South Dakota, perfectly hardy. Does best in central and northern sections.

PRICE: 9/16 in., Each, \$1.25; 3 for \$3.55; 10 for \$10.95.

RED JUNE—Ripens in July

Extra early summer apple. Color deep red over yellow, fine flavored, tender and juicy. This medium size, round red apple is one of the best summer kinds. Tree is moderate size and generally reliable bearer of good crops. Firm, crisp flesh keeps well to early winter. Profitable summer market variety.

PRICE: 9/16 in., Each \$1.10; 3 for \$3.10; 10 for \$9.45.

Dolgo Crab Apples

NOW! Dwarf Apple Trees

At Reasonable Prices

Dwarf apple trees are highly prized for the small garden where space is limited. They make plenty of fruit possible as these sturdy little trees bear a big crop way out of proportion to their size.

Quintuplet Apple

5 Kinds of Apples on One Tree!

This one tree gives you delicious apples from early season to late winter. Five fine varieties are budded on one tree, selected to cover the apple season from late summer through fall and winter varieties.

Just right for your garden if you don't have room for five trees. Plant one or two of these unusual trees and have five varieties of apples.

PRICES: 2 yr., 9/16 to 11/16 in., 5 ft. and up, Each, \$2.50; 2 for \$4.75; 3 for \$6.60.

Famous PEACHES

PEACH TREE PRICES

Experienced growers recommend 9/16 in.; 4 to 5 foot trees as best size to plant.

(All Varieties Except Hardee and Redhaven.)

1 yr. 9/16 in., 4 to 5 ft., Each 95c;
3 for \$2.75; 10 for \$8.25; 25 for \$18.95; 100 for \$68.50.

HALE HAVEN — MID-AUGUST. Wonderful new peach with great size and beautiful color of J. H. Hale and earliness of South Haven. A better peach of richest flavor; yellow flesh firm and juicy. Better shipper than South Haven; always freestone; bears every year. Hale Haven is one of the best and its sale shows a far greater increase than any other kind. Always brings more money. Ripens 10 to 15 days before Elberta and is second only to that grand variety in popularity and profits.

ELBERTA—SEPTEMBER 1, PLANTED BY THOUSANDS. Standard commercial peach. Plant Elberta and be sure of a crop. Large to extra large. Freestone. Golden yellow flesh, red at the pit, firm, juicy. Has no equal as a prolific bearer and shipper. Best known peach.

CHAMPION—EARLY AUGUST. BEST WHITE FREESTONE. Many prefer this white peach. Full of rich juice, finest flavor. Large red cheek. Heavy bearer; very hardy.

SOUTH HAVEN—AUGUST, THE PROFITABLE EARLY PEACH. Originated in the famous Michigan Peach Belt, South Haven, has proven one of the best varieties in every peach growing section. Experiment Stations recommend it when an earlier peach than Elberta is desired. Withstands severe winter cold. As fine a peach as the standard Elberta, firm, highly colored—and ripens 12 to 18 days earlier.

J. H. HALE—LATE AUGUST. FIRST IN SIZE, COLOR, QUALITY. Yellow, thick skin, colors to a rosy tint. Deep yellow, fine grained very firm flesh—delicious flavor. A beautiful peach, fresh or canned. In size, color and quality, no peach compares with Hale. Always brings \$1.00 to \$1.50 more per bushel.

NEW—REDHAVEN—30 DAYS EARLIER THAN ELBERTA. With the perfection of Redhaven in 1940 (a cross of Hale Haven and Kalhaven), Mr. Stanley Johnston of South Haven, Mich., Expt. Station has completed a remarkable series of new peaches.—Kalhaven (1936) ripening about 4 days before Elberta, Hale Haven (1932) about 17 days before, and now Redhaven (1940) about 30 days earlier. All are outstanding in commercial shipping qualities—good size, color, firmness, dependable crops. All are equally excellent for home use because of size, fine flavor, yellow flesh, freestone pit.

Redhaven, the reddest of all three, usually completely covered with brilliant red. Medium size, firm, fine grained, sweet fruit. Trees are strong, healthy growers; very heavy producers—thinning often needed. Fruit buds hardier than Elberta, nearly as hardy as South Haven. You should have Redhaven for a fine extra early peach.

PRICE: 9/16 in., 4 to 5 ft., Each \$1.20; 3 for \$3.30; 10 for \$9.95.

Pears THE WORLD'S MOST DELICATELY FLAVORED FRUIT

BARTLETT— SUMMER. Known for quality. One of the best known and popular varieties for both commercial and home orchard planting. Golden color with red streak, mellow and indescribably delicious both fresh and canned. Heavy bearer.

KIEFFER— FALL. Best pear for large commercial planting, because of its sure crop, heavy yield and excellent shipping qualities. Kieffer has been proven unexcelled for commercial canning. A local cannery used over 200,000 bushels in one season.

DOUGLAS—Bears In 2 Years. Why wait 5 or 6 years for a crop of pears when the NEW DOUGLAS very often bears the second year? Young trees have been known to bear in the nursery row. Heavy bearer of good quality fruit. Very hardy, producing fruit from a second set of blossoms, when the first was frozen. Very blight resistant. Juicy, sweet, delicious.

PEAR TREE PRICES—(Except Seedless)

2-yr., 7/16 in., 3 to 4 ft.

Each	\$1.25	10 for	\$10.75
3 for	3.60	25 for	26.50

The Famous SEEDLESS PEAR

Eat It All—Can It Whole—No Seeds—No Core

Discovered by Mr. Cope of Ohio, this remarkable pear is described by Prof. Ellenwood of Ohio Expt. Station as being well worth wide trial. Ripens 10 days after Bartlett. Has Bartlett's fine color, good size, and wonderful flavor—but no seeds or core. Think of eating right through a delicious pear! Easy to prepare salads; for canning, just peel and can whole.

Begins bearing in 3 years with a full crop in 5. Trees are rapid growing, hardy and unusually free from blight.

Grow it for Market

This new pear is not a novelty but a profitable fruit. Keeps in common storage excellently for 2 weeks. Produces heavily; ships well. Such a pear should command top prices on your market. Order what you want early.

PRICE: 2-yr., 7/16 in., 3 to 4 ft.—Each, \$1.45; 2 for \$2.75; 4 for \$5.30; 6 for \$7.70.

Bartlett Pear

New HARDEE

U. S. Plant Patent No. 120

THE HARDIEST PEACH

Produces Full Crop After 18 Degrees Below Zero

This record is reported by Ohio Experiment Station. It means sure crops when even Elberta fails, and that means soaring peach prices. HARDEE is a drought-resisting, steady bearing, sure-cropping tree. Fruit is a delicious, high quality, yellow free-stone. Ripens with Elberta; is more elongated, rich yellow with red cheek. Shipping, keeping and home use qualities are excellent. Successful peach crops can now be grown in many sections that were too cold before. Plant HARDEE, the cold resisting peach, and safeguard your future crops. Order Yours At Once.

PRICES: 7/16 trees, Each, 95c; 3 for \$2.70; 10 for \$8.00; 25 for \$18.75.

9/16 trees, Each \$1.09; 3 for \$3.15; 10 for \$9.50; 25 for \$22.50.

New Hardee Peach

Popular and Reliable Cherries

SOUR CHERRIES

EARLY RICHMOND—One of the most popular sour cherries, unexcelled for cooking. Dark red, tart, and juicy. Hardy trees uninjured by cold. Big crops.

MONTMORENCY—Ripens late in June and is best sour cherry for market. Makes delicious pies; fine for canning. Fruit larger than Richmond; bright red, acid flavor.

Grow Montmorency for the Canning
Factory Market

SWEET CHERRIES

BLACK TARTARIAN—Extensively planted and prolific. Regular bearer of big, black juicy, sweet fruit. Hardy, vigorous. Best and most profitable black sweet cherry—for market and home.

NAPOLEON-YELLOW—Old-time favorite, succeeds practically everywhere. Heavy bearer of large light yellow heart-shaped fruit.

SCHMIDT'S BIGARREAU—Newer sort. Unusually hardy. One of the best late sorts, especially in Northern sections. Largest size, firm fruit; deep red to mahogany. Brings best prices.

WINDSOR—Liver colored large cherry, wonderful flavor. Originated at Windsor, Canada. Hardy prolific tree. Valuable for market or family use.

HARDY PLUMS

BURBANK—DELICIOUS TABLE Plum. Hardy Japanese variety free from black knot. Deep red color, unusually delicious flavor. Keeps three weeks after ripening. Ripens August 15 to Sept. 1.

ITALIAN PRUNE—BEST for Canning and Preserving. Medium size dark purple plum. Firm, sweet, the favorite everywhere for canning. Tree easy to grow, remarkably free from disease, very productive. Good keeper, excellent shipper. Ripens in September.

STANLEY PRUNE—Recommended by New York Expt. Station as the best new early plum—early August, 10 days before German Prune. Stanley is the finest prune type plum; fruit largest size, dark bluish purple, free-stone, fine grained, tender, juicy and sweet. Firm and does not crack. Excellent quality for cooking or eating. Produces heavy full crop every year; often bears in 3 years.

YELLOW EGG—BEST YELLOW PLUM. Extra Large Fruit. Clear yellow egg shaped. Sugar-sweet, rich, juicy and melting. Fine for table or canning use. Hardy productive tree. Ripens August.

PLUM TREE PRICES 2-yr., 7/16 in., 3 to 4 ft.

QUINCE

ORANGE—Best of All Quince. Regular annual bearer of fine, large, rich yellow, aromatic fruit. Makes delicious jam and quince "honey". Trees hardy in most all sections. Begin bearing very young and produce large crops.

Price: 2 yr. 7/16 in., 3-4 ft., Each \$1.55;
2 for \$2.95.

Hansen Bush Cherry (See Page 28)

Fruit as delicious as sweet cherries; makes excellent Jell and Jam.

APRICOTS

Apricots are quite hardy—about like standard plums. Two or more trees should be planted to provide full pollination.

EARLY GOLDEN—One of the earliest, ripens in July. Fine, apricot-flavored, clear lemon-yellow, medium size fruit. Bears abundantly.

MOORPARK—One of the largest kinds. Ripens August. Golden-yellow, red-cheeked fruit. Freestone, sweet and juicy with that true apricot flavor. Tree is beautifully shaped and when in full bloom is a picture of spring. Very rapid grower and heavy bearer.

PRICES

1-yr., 7/16 in., 3 to 4 ft., each \$1.55; 2 for \$2.95; 3 for \$4.10; 6 for \$7.75.

1-yr., 9/16 in., 4 to 5 ft., each \$1.85; 2 for \$3.60; 3 for \$5.15; 6 for \$9.95.

Cushion Mums

Hundreds of Beautiful Blooms from
August to Frost

These marvelous new type chrysanthemums begin to bloom in August and continue their lovely, brilliant and many colored flowers until late fall and heavy frosts. Literally hundreds of blooms on one plant—a mass of color 2 feet high and 2 to 3 feet across. All this beautiful flower growth comes this first summer from the plants you receive and put out this spring. A hardy perennial that will increase in size and beauty each year. Our plants are all grown from carefully selected, heavy flowering, clear colored, established plants. Plant about 18 to 24 inches apart in any good soil. Ideal for borders, in clumps, or a spot of color wherever you want it.

New Mum "SUNSET"

A new mum of sensational, almost unbelievable colorings; changing as the blooms open and as the season advances. When bloom begins in August, buds are almost deep red, then open to full apricot and orange. Later in the season the colors deepen to shadings of rust and rose. Buds and fully opened flowers are continuously on the plants. SUNSET is a rarity among the many color combinations found in cushion mums. We are happy to offer it and know you will be as pleased with it as we are.

Strong potted plants, with soil on roots ready to plant and grow quickly: 70c each; 2 for \$1.25; 4 for \$2.35.

Cushion Mums by Color

PINK, BRONZE, WHITE, YELLOW.

Excellent, profusely blooming, selected varieties with clear and brilliant colors. Strong potted plants, easy to plant and quick to grow:

45c each

All 4 for \$1.39

SPECIAL OFFER

- 1 Plant each of Pink, Bronze, White, Yellow—and—
- 1 New SUNSET Mum

NOTE—Cushion mums will be ready for shipment about April 25 to 30. If your order is shipped earlier, we will send them when ready.

CHOICE ROSES

Treasure Island

The Doctor

Poinsettia

You buy roses for an abundance of bloom. Our bushes are vigorous growers, full of vitality to give you more and finer flowers—well worth a few cents more. All are hybrid tea roses and will flower all summer and early fall. These big, sturdy, field-grown bushes will bloom this summer.

TREASURE ISLAND—Coppery-pink. Flaming coppery pink, inside of petals light salmon, orange at base; strong stem. Long pointed buds with flowers large and fragrant. Received highest award of Silver Medal at San Francisco Fair.

THE DOCTOR—Silvery pink. A great achievement in rose breeding. Large beautiful buds opening to enormous, semi-double, cupped flowers of silvery pink; intensely fragrant. Plants vigorous and bushy.

POINSETTIA—Brilliant Red. A newer red rose not yet generally offered. True, brilliant red, full flowering rose. Strong growing, vigorous bush. A fine, fragrant, rose-red rose.

Price: Each, \$1.15.

All 3 for \$2.95

Choice Hardy Phlox

"America's Most Popular Perennial"

These newer varieties grow more thriftily and bring their profusion of larger, more brilliant, true colors year after year during July, August and September. These big strong plants bloomed last summer in the nursery and will flower freely for you this summer. Pick off faded flowers and seed pods to keep new blooms coming. Take this opportunity to get the finest Phlox.

YOUR CHOICE
Any Five Shrubs
Listed Below

All our shrubs are not only 2 years old but are 1½ to 2 ft. high. All field grown, heavy, well rooted and branched. They will make a good growth and a fine showing quickly.

FLOWERING ALMOND—Upright grower, 3 to 4 ft. Long branches are thickly studded with small double, delicate pink flowers over their full length, before the leaves appear. Blooms in April.

PRICE: Each, 58c; 3 for \$1.60; 6 for \$2.95

FORSYTHIA INTERMEDIA—Golden Bell. Earliest shrub to bloom. Bright yellow flowers seem the spirit of Spring, opening before the leaves appear. Grows to 6 to 8 ft. but may be pruned as desired. Branches slightly drooping. Dark green leaves.

PRICE: Each, 48c; 3 for \$1.30; 6 for \$2.35

HYDRANGEA P. G.—This showy shrub is perfectly hardy. Large clusters of pure white blossoms, later turning soft pink, from August to late Fall. Superb either singly or in groups; often used as a hedge.

PRICE: Each, 58c; 3 for \$1.60; 6 for \$2.95

SCARLET FLOWERING QUINCE—Scarlet flowers in April and May. Grows 6 to 8 ft. One of the most attractive spring blooming shrubs; blossoms always large, flowering in great masses just as the leaves are coming out. Foliage a dark glossy green.

PRICE: Each, 48c; 3 for \$1.30; 6 for \$2.35

MOCK ORANGE VIRGINALIS—A magnificent new variety. Medium height, compact bush. The flowers (single, semi-double and fully double) are the largest and most sweetly fragrant of any variety, with longest early blooming season. Gaining popularity in every state.

Price: Each, 58c; 3 for \$1.60; 6 for \$2.95

SPIREA VAN HOUTTEI—Bridal Wreath. One of the most beautiful and popular of flowering shrubs. In May and June the slender branches droop and form a veritable fountain of snowy white bloom. Thrives anywhere, in shade or sun, wet or dry and grows from 6 to 8 ft. high in good ground. Makes a beautiful ornamental hedge.

PRICE: Each, 23c; 3 for 65c; 6 for \$1.15; 12 for \$1.95

WEIGELA EVA RATHKE—Crimson. 3½-4 ft. June flowering. Of smaller growth than the other Weigelas; decidedly spreading. A profusion of flowers brilliant crimson with white throats is its outstanding characteristic. It is especially showy.

PRICE: Each, 58c; 3 for \$1.60; 6 for \$2.95

HANSEN BUSH CHERRY

The fruit of this fine ornamental shrub is good to eat. Fruits are large as the average cherry; have a new, delicious flavor; excellent fresh and for jam and jelly. White flowers in spring, red and gold foliage in autumn. Hardy everywhere, grows to about 4 to 5 ft.; bears immense crops annually. 2 yr. large, 18-24 in.

PRICE: Each, 50c; 3 for \$1.40; 6 for \$2.55

Giant Blueberries

Ornamental as Well as Enormously Productive

These genuine cultivated Blueberries have been originated and improved by government experiment to produce big yields of giant size, deliciously sweet berries. Berries 3 to 4 times the size of wild kinds. Now every garden can have enough of this healthful fruit for canning and pies—2 to 6 bushes. Two or three varieties to lengthen the season are advised. Ripen from early July to late August. Bushes make a beautiful and useful ornamental shrub.

RANCOCAS. Midseason. Hardy, vigorous, productive; very large, firm berries of excellent sweet flavor.

HARDING. Midseason to late. Sweetest of all. Hardy, very productive; spreading growth. Longer fruiting season.

JERSEY. Late. Largest of 10 leading kinds, of fine appearance and average yield. Jersey is one of the best cultivated blueberries. Strong sturdy bushes.

RUBEL. Very late. Hardy, vigorous and very productive, upright grower; large, extra firm berries of good quality. Recommended for commercial use.

PRICES OF BLUEBERRY PLANTS

2 yr., No. 1, 6-12 inches, sure to grow; start to bear second season: 2 for \$2.25; 4 for \$4.15; 6 for \$5.75; 12 for \$11.00.

3-yr., No. 1, 12-18 inches, bearing-age bushes: Each \$1.75; 2 for \$3.15; 3 for \$4.60; 6 for \$8.25; 12 for \$14.95.

4-yr., No. 1, 18-24 inches, large size, bearing-age bushes: Each \$2.75; 2 for \$5.15; 3 for \$7.20; 6 for \$13.85.

Blueberries can be grown satisfactorily on sandy or muck soil that is strongly acid and well supplied with water. Soil not acid can be made so by mixing in acid peat, rotted leaves, or humus.

Blueberries For Market

Cultivated Blueberries for market are profitable, selling retail from 35c to 65c per quart. Berries are firm and ship well. Many new plantings are being made because profits are good.

Bushes last a lifetime and require no unusual care, yields vary from 3 to 9 quarts per bush depending on age. Plant 5 to 7 feet apart. Of the many varieties being offered we have selected the 4 that in our opinion are best, most productive.
